

AtmosMultiSolarCombi

The Atmos Multi SolarCombi presents a combination of high efficiency boiler and hot water tank, plus a Solar hot water system. With the extra hot water storage the Multi provides a massive 180 litre hot water storage capacity, plus a fast flow rate of 30 litres/minute for multiple bathroom homes.

This combination system can reduce fuel consumption and CO₂ emissions by up to 50%, saving money and the environment.

FEATURES

- Atmos Multi 24/80 or 32/80 boiler
- Atmos MonoSolar thermal store
- 2.75 m² or 4.12 m² solar panel
- Drain back system
- Mains pressure hot water
- Hot water flow up to 30 lit/min at 60°C
- Minimal maintenance
- 10 year solar panel guarantee
- 5 year MonoSolar guarantee
- 5 year heat exchanger guarantee

COMMERCIAL SOLAR HOT WATER SYSTEMS

Large capacity solar hot water systems can be supplied utilising any number of solar panels and hot water capacities. There is no limitation to how many panels can be used, and Atmos can provide a design service for any commercial system, such as schools, offices and other facilities.

Swimming Pools can be economically heated using special ground level solar collectors. Call for details.
